SUMMARY

Results-oriented professional with 5+ years of experience in client relationship management, team leadership, and high-volume service delivery. Recognized for building trust with clients, partners, and cross-functional teams — and for sustaining strong performance standards in fast-paced, demanding environments. Comfortable operating at both the contributor and management level, with a background that spans customer service, account coordination, program management, and team development. Twice promoted on performance, with a 99% quality audit score and a track record of dependable execution across healthcare, tech, and service-driven organizations.

WORK EXPERIENCE

Onboarding & Operations Analyst
Covered Care — May 2026 – Present

- Manage end-to-end merchant onboarding across direct and aggregator channels, coordinating application reviews, financial documentation, compliance requirements, partner communication, and activation.
- Built the department's reporting framework and KPI dashboard, using performance data to identify bottlenecks and reduce overall onboarding turnaround time as application volume increased.
- Established an SOP library, standardized workflows, training resources, and quality controls to strengthen consistency, accountability, and onboarding execution.
- Lead two onboarding analysts through work assignment, training, performance monitoring, and quality reviews while overseeing daily departmental operations.
- Partner with aggregators and Compliance, Finance, Sales, Product, and Development teams to resolve onboarding issues, verify ACH documentation, and coordinate timely merchant activation.
- Designed and built internal reporting, automation, and API-connected review tools using AI development platforms, supporting merchant website checks, customer-review analysis, and identification of potential fraud indicators.

Enrollment Operations Manager
HelloHero — September 2025 – May 2026

- Oversee end-to-end client onboarding operations — from initial referral through service activation — maintaining process integrity and a high-quality client experience across a high-volume program.
- Built and lead a cross-functional operations and care coordination team, establishing SOPs, KPI frameworks, SLAs, and escalation protocols that drive consistent, measurable throughput.
- Designed multi-channel outreach workflows (email, SMS, calls) with CRM-integrated pipelines that improved client engagement rates and reduced program drop-off.
- Serve as the primary point of contact for external program partners — proactively resolving bottlenecks and building the kind of working relationships that hold up under pressure.

Enrollment Advisor (promoted from Enrollment Coordinator)
Hazel Health — March 2024 – September 2025

- Managed high-volume inbound and outbound calls — converting inbound leads and referrals into confirmed service appointments while consistently ranking among top performers in both call volume and conversion.
- Kept a clean, disciplined CRM pipeline — tracking every client interaction, managing follow-ups on time, and making sure nothing slipped through the cracks.
- Guided clients through a complex, multi-step onboarding process with clear, empathetic communication — earning a 99% quality audit score in a fast-paced environment.
- Promoted from Coordinator to Advisor based on top-tier performance and expanded ownership across the full client lifecycle.

Admissions Coordinator
Lighthouse Recovery — April 2023 – March 2024

- Handled high-volume inbound inquiries and conducted structured needs assessments — matching each prospective client to the right program based on their individual situation.
- Took a consultative approach to every intake conversation — listening carefully, addressing concerns, and guiding clients through a high-stakes decision with honesty and care.
- Worked cross-functionally with clinical, housing, and insurance teams to ensure smooth, well-coordinated transitions from first contact through admission.
- Owned a full CRM pipeline from inquiry to admission — complete documentation, zero follow-up gaps, and a clean handoff at every stage of the client journey.
